

# Boot Scraper

Heavy Traffic • Indoor/Outdoor

The Boot Scraper mat is an all-weather indoor/outdoor mat made from tough nitrite rubber matting with circular cleats that keeps debris and moisture away from the walking surface, thereby preventing them from being tracked into your building.

Photographic quality logos give the mat a great look while it withstands heavy foot traffic and severe weather conditions.

Beveled edges and a textured slip-resistant surface prevents slips and falls.

The mat is resistant to ultraviolet rays, chemicals and oils. It comes in a wide variety of colors and is easy to clean.

Graphics cover up to approximately eighty percent of the mat surface.

Sizes: 2' x 3' to 6' x 8'.

*Please Note: Finished mats will be slightly smaller (up to 2.5%) than the stated size, due to the shrinkage which incurs during the manufacturing process.*

## Ideal Placement

Retail Stores • Restaurants • Commercial Buildings  
Industrial Facilities • Automotive Repair Shops
