

Classic High Definition

Medium to High Traffic • Indoor/Outdoor

The Classic High Definition (HD) logo mat uses the Chromojet printing method which produces a print resolution ten times greater than that of regular nylon dye logo mats. High definition printing produces a powerful statement of professionalism that will enhance and promote your brand and your message.

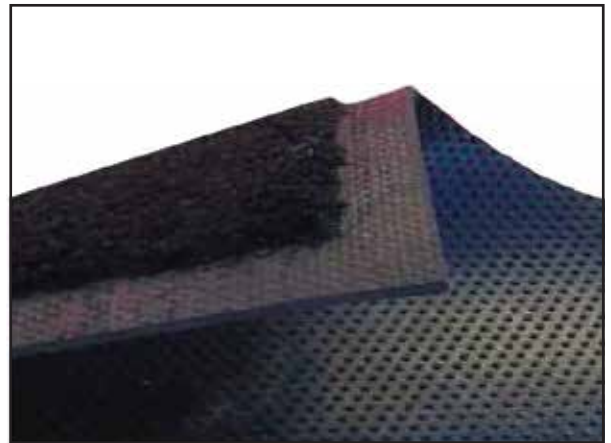

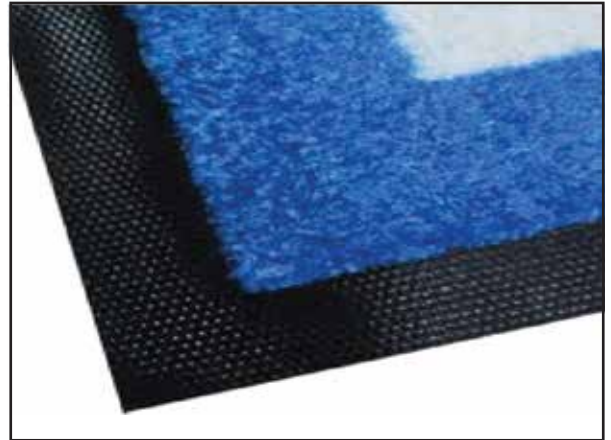

High definition images are created using a permanent nofade digital injected dye from our pallet of 130 colors, printed onto a 32-ounce high-twist, heat-set nylon carpet. If you require special colors, PMS color matching is available.

The Classic High Definition is available with smooth rubber backing designed to keep the mat in place on wood or cement surfaces as well as a gripper backing for use on carpeted surfaces. Both have a low-profile rubber edging to prevent slips and falls.

Our professional designers are pleased to work with you to create that special mat that combines elegance, durability and functionality.

Sizes: from 2' x 3' up to 6' x 20' in one-foot increments.

Please Note: The finished mat will be slightly smaller (up to 2.5%) than the stated mat size due to shrinkage which occurs during the manufacturing process.

Ideal Placement

Retail Store • Restaurants • Hotels • Schools
Professional Offices • Commercial Buildings
